EU Extended Fragrance Allergen Statement

BACDANOL | CAS 28219-61-6

Declaration

The supplied EU extended fragrance allergen declaration dated 05 February 2026 reports no listed allergen at or above 10 ppm (0.001% w/w). Entries in the source table are marked with dashes, meaning absent or below the 10 ppm reporting threshold.

Product	Bacdanol
Allergens reported at >=10 ppm	None reported
Reporting threshold	10 ppm (0.001% w/w)
Source statement date	05 February 2026

Finished-product labeling

The supplied statement cites 10 ppm for leave-on products and 100 ppm for rinse-off products as EU cosmetic labeling thresholds. Final labeling must be assessed for the finished formulation and current applicable rules.

Scope

This statement reflects the reported EU extended fragrance allergen screen in the supplied documentation; it does not establish absolute absence of trace allergens below the reporting threshold.
