# IFRA CONFORMITY STATEMENT

Ethyl Maltol | CAS 4940-11-8

IFRA Standards basis: 51st Amendment to the IFRA Code of Practice (published June 2023). Source certificate issue date: 24 June 2024; version 1 (17 June 2021).

The source certificate indicates the following maximum levels for Ethyl Maltol. “Not limited” means no concentration limit is imposed by the cited IFRA Standards for that category; it does not replace finished-product safety assessment.

| IFRA category | Maximum use level |
|---|---|
| 1 | Not approved |
| 2 | Not limited |
| 3 | Not limited |
| 4 | Not limited |
| 5A | Not limited |
| 5B | Not limited |
| 5C | Not limited |
| 5D | Not limited |
| 6 | Not approved |
| 7A | Not limited |
| 7B | Not limited |
| 8 | Not limited |
| 9 | Not limited |
| 10A | Not limited |
| 10B | Not limited |
| 11A | Not limited |
| 11B | Not limited |
| 12 | Not limited |

## Additional IFRA Information

The supplied certificate states that Ethyl Maltol contains no substances restricted by the IFRA Standards applicable to the certificate.

Category 1 covers lip products and children’s toys; Category 6 covers oral-care products. Category 4 includes fine fragrances.

This Veriscents-formatted statement reproduces the supplier-provided IFRA assessment; it is not a newly performed IFRA compliance assessment. Finished-product manufacturers remain responsible for overall safety and regulatory compliance.

Veriscents document preparation date: 14 October 2026. Revision 1.
