

Jasmine Absolute, Egypt

jasmine-absolute-egypt

IFRA CONFORMITY CERTIFICATE

Material	Jasmine Absolute, Egypt
Veriscents SKU	jasmine-absolute-egypt
Basis	IFRA Standards, 51st Amendment (published June 2023)
Source status	Certificate based on statistical analytical data and not carried out on each batch
Detection limit	< 0.01%

Maximum concentration in finished product

IFRA Class	Maximum usage
1*	0.11%
2	0.03%
3	0.65%
4	0.60%
5(a)	0.15%
5(b)	0.15%
5(c)	0.15%
5(d)	0.15%
6*	0.35%
7(a)	1.20%
7(b)	1.20%
8	0.06%
9	1.20%
10(a)	4.20%
10(b)	4.20%
11(a)	0.58%
11(b)	0.58%
12	33.33%

Restricted / prohibited / specified materials reported

Status	Material	CAS	Reported
Restricted	Jasmine Absolute (grandiflorum)	84776-64-7	100%
Restricted	Benzaldehyde	100-52-7	0.04%
Restricted	Benzyl Alcohol	100-51-6	3.08%
Restricted	Benzyl Benzoate	120-51-4	<=12%
Restricted / Prohibited as reported	Benzyl Cyanide	140-29-4	0.03%
Restricted	Benzyl salicylate	118-58-1	0.08%
Restricted	Creosol	93-51-6	0.51%
Restricted	Eugenol	97-53-0	<=3%
Restricted	Geraniol	106-24-1	0.02%
Restricted	Isoeugenol	97-54-1	0.17%
Specified	Linalool	78-70-6	<=8%

Important IFRA qualification

The supplied certificate states that this material contains ingredient(s) banned by the IFRA Code of Practice and Standards through the 51st Amendment. It further states that prohibited ingredients cannot be present above 100 ppm (0.01%) in a finished product. The maximum-use values above are reproduced from that certificate.

Certificate scope

This certificate does not certify a comprehensive safety assessment of all constituents. The finished-product manufacturer remains responsible for final-product safety and compliance.
