

Orange Blossom Absolute

orange-blossom-absolute

SECTION - IFRA CONFORMITY CERTIFICATE

Material	Orange Blossom Absolute
Veriscents SKU	orange-blossom-absolute
Basis	IFRA Standards, 51st Amendment (published June 2023)
Source status	Conformity information supplied with the material; statistical analytical basis, not tested on every batch
Detection limit	< 0.01%

Maximum concentration in finished product

IFRA Class	Maximum usage
1*	0.79%
2	0.79%
3	0.79%
4	0.79%
5(a)	0.79%
5(b)	0.79%
5(c)	0.79%
5(d)	0.79%
6*	0.79%
7(a)	3.70%
7(b)	0.79%
8	0.79%
9	3.70%
10(a)	3.70%
10(b)	0.79%
11(a)	3.70%
11(b)	0.79%
12	3.70%

Restricted / prohibited / specified materials reported

Status	Material	CAS	Reported concentration
Restricted	Benzyl alcohol	100-51-6	0.07%
Restricted / Prohibited as reported	Benzyl Cyanide	140-29-4	0.27%
Restricted	Bergapten MOP	484-20-8	0.19%
Restricted	Farnesol	4602-84-0	1.79%
Restricted	Geraniol	106-24-1	0.31%
Specified	Linalool	78-70-6	44.67%
Specified	Limonene	138-86-3	1.03%

Important IFRA qualification

The source certificate states that this material contains ingredient(s) prohibited by the IFRA Code of Practice and Standards through the 51st Amendment and that prohibited ingredients cannot be present above 100 ppm (0.01%) in a finished product. The maximum-use values above are reproduced exactly from that certificate and must be observed when formulating.

Certificate scope

This certificate does not constitute a comprehensive safety assessment of all constituents. The manufacturer of the finished product is responsible for confirming the safety and regulatory compliance of the final formulation.

Document note

Veriscents has reformatted the conformity information supplied with this material into its customer-document format. No independent IFRA analysis or batch testing is represented.
