

Jasmine Absolute, Egypt

jasmine-absolute-egypt

SECTION 1 - IDENTIFICATION

Product identifier	Jasmine Absolute, Egypt
Botanical source	Jasminum grandiflorum
INCI name	Jasminum Grandiflorum Flower Extract
Veriscents SKU	jasmine-absolute-egypt
Recommended use	Aromatherapy and natural perfumery, as recommended.
Restriction on use	Do not ingest.

Supplier

Company	Veriscents
Address	30 N. Gould Street, Sheridan, WY 82801, USA
Telephone	+1 877.863.7700
E-mail	support@veriscents.com

Medical emergency information United States Poison Help: +1 800.222.1222

SECTION 2 - HAZARD(S) IDENTIFICATION

Classification	Flammable Liquids, Category 4; Skin Corrosion/Irritation, Category 2; Skin Sensitization, Category 1; Hazardous to aquatic environment Long term/Chronic, Category 2
Signal word	Warning
Hazard statements	H227 Combustible liquid. H315 Causes skin irritation. H317 May cause an allergic skin reaction. H411 Toxic to aquatic life with long lasting effects.
Precautionary statements	P102; P210; P280; P370+P378; P403+P235; P501; P264; P302+P352; P362+P364; P261; P272; P333+P313; P273; P391.
Other hazards	May cause skin irritation/allergy. Patch test recommended.

SECTION 3 - COMPOSITION / INFORMATION ON INGREDIENTS

Component	CAS / identifier	Reported concentration
Jasminum Grandiflorum Absolute (Jasmine)	TSCA 8022-96-6; EINECS CAS 84776-64-7; UN 3082; EINECS 283-993-5	100%
Benzyl Alcohol	100-51-6	<=2.54%
Benzyl Benzoate	120-51-4	<=12%
Benzyl Salicylate	118-58-1	<=0.08%
Eugenol	97-53-0	<=3%
Geraniol	106-24-1	<=0.02%
Isoeugenol	97-54-1	<=0.17%
Linalool	78-70-6	<=8%

SECTION 4 - FIRST-AID MEASURES

Eye contact	Remove contact lenses if present. Flush with water for 15 minutes. If symptoms persist, obtain medical attention.
Skin contact	If irritation occurs, wash with soap and water and rinse thoroughly. If irritation continues, consult a physician.
Inhalation	Not likely under normal conditions of use. If symptoms occur, move to fresh air and obtain medical advice.
Ingestion	Not an expected route of exposure. If a small quantity is swallowed, rinse the mouth with milk or water and consult a doctor. Keep the person at rest. Do not induce vomiting unless directed by medical personnel. Seek immediate medical attention and show the product label.
Most important effects	Eye irritation/corneal damage if not promptly rinsed; repeated skin contact may cause allergic dermatitis; high vapor concentrations may cause anesthetic effects.
Special treatment	None known.

SECTION 5 - FIRE-FIGHTING MEASURES

Flash point	+80 C
--------------------	-------

Jasmine Absolute, Egypt

jasmine-absolute-egypt

Suitable extinguishing media	Sprayed water or water mist, alcohol-resistant foam, multipurpose ABC powder, BC powder, carbon dioxide.
Unsuitable media	Straight water jet.
Specific hazards	None known.
Protective actions	Use self-contained breathing apparatus and protective clothing.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions	Stop leak if this can be done without risk. Consult Sections 7 and 8. Avoid breathing emitted vapors.
Environmental precautions	Contain with non-combustible absorbent material. Prevent entry into sewers and waterways and notify authorities if release occurs.
Clean-up	Absorb with non-combustible material and transfer to containers.

SECTION 7 - HANDLING AND STORAGE

Safe handling	Use good industrial hygiene and safety practice. Avoid skin and eye contact and inhalation. Ensure adequate ventilation. Wash hands after handling and launder contaminated clothing before reuse.
Storage	Store in closed glass containers in a cool area away from heat, light and ignition sources.

SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure limits	OSHA TWA/STEL, ACGIH TWA/STEL and NOHSC TWA/STEL: none established.
Engineering controls	General room or local exhaust ventilation as appropriate. Ground electrical equipment and comply with applicable electrical codes.
Eye / face protection	Safety goggles suitable for liquid splash protection (source references EN166).
Hand protection	Chemical-resistant gloves for prolonged or repeated contact; source recommends nitrile rubber (NBR) or PVA.
Body protection	Suitable work clothing; wash contaminated skin and launder work clothing regularly.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Property	Value
Physical state	Liquid
Color	Brown / orange
Odor	Intense floral, sweet and tenacious
Water miscibility	Insoluble
Alcohol miscibility	Soluble, vol. 5 of ethyl alcohol 96%
Essential-oil miscibility	Soluble
Liposolubility	Liposoluble
pH	Not applicable
Boiling point / range	Not specified
Flash point	+80 C
Vapor pressure	Not specified
Evaporation rate	Not specified
Density	Not specified
Self-ignition temperature	Not specified
Decomposition point	Not specified
Refractive index @ 20 C	1.470 - 1.495
Partition coefficient	Not specified
Specific gravity @ 20 C	0.935 - 0.975

Source-document note

The supplied lot COA gives a specific-gravity specification of 0.945-0.975, while the supplied SDS gives 0.935-0.975. Veriscents has preserved the SDS value here rather than silently reconciling the two documents.

Jasmine Absolute, Egypt

jasmine-absolute-egypt

SECTION 10 - STABILITY AND REACTIVITY

Reactivity	Not reactive.
Chemical stability	Stable under recommended handling and storage conditions.
Hazardous reactions	At high temperatures the substance may release carbon monoxide, carbon dioxide, fumes and nitrogen oxide.
Conditions to avoid	None known.
Incompatible materials	Alkali metals, ammonia, oxidizing agents, peroxides and strong inorganic acids.
Hazardous decomposition products	Carbon monoxide and carbon dioxide may be formed by thermal decomposition.

SECTION 11 - TOXICOLOGICAL INFORMATION

Acute toxicity	Dermal LD50: rabbit, 5 g/kg (as reported in source SDS).
Skin corrosion / irritation	May be irritating to skin.
Serious eye damage / irritation	May be irritating to eyes; prompt rinsing and removal are recommended.
Respiratory effects	High vapor concentrations may cause anesthetic effects.
Germ cell mutagenicity	Not specified.
Carcinogenicity	The source SDS states that no component at $\geq 0.1\%$ is identified as a probable, possible or confirmed human carcinogen by IARC; similar statements are presented under ACGIH, NTP and OSHA.
Reproductive toxicity	Not specified.
STOT	Not specified.
Aspiration hazard	Not specified.
Likely route of exposure	Skin/scalp contact.
Symptoms	Eye irritation; skin redness if irritated.
Chronic / repeated exposure	The source SDS states that excessive vapor exposure may irritate mucous membranes and the respiratory system and may affect kidney, liver and central nervous system. Repeated/prolonged skin contact may cause defatting and dermatitis.

SECTION 12 - ECOLOGICAL INFORMATION

Overall ecological data	Balance of data on substance as a whole not determined.
Aquatic toxicity	No numerical fish, aquatic plant or microorganism toxicity data available.
Persistence / degradability	Biodegradation is expected.
Bioaccumulative potential	Bioaccumulation is unlikely.
Mobility in soil	Unknown.
Other adverse effects	Avoid exposure to marine environments and waterways.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste treatment	Do not discharge to drains or waterways. Dispose in accordance with applicable federal, state and local requirements. Waste minimization and appropriate technical controls are recommended.
Packaging	Empty containers completely, retain labels and send to an appropriate certified disposal contractor.

SECTION 14 - TRANSPORT INFORMATION

UN number	UN 3082
Proper shipping name	Environmentally hazardous substance, liquid, n.o.s.
Hazard class	9
Packing group	III
Environmental hazards	Environmentally hazardous material.
Special precautions	Not specified.
Bulk transport	Not specified.
Additional transport information	Not specified.

Jasmine Absolute, Egypt

jasmine-absolute-egypt

SECTION 15 - REGULATORY INFORMATION

Jurisdiction	Source statement
Canada	Not regulated
European Union	See EU allergen information in Section 3
Hong Kong	Not regulated
Singapore	Not regulated
United States	Not regulated by Federal or State Regulations
California Proposition 65	Source SDS states that this product does not contain chemicals known to the State of California to cause cancer, birth defects or other reproductive harm.

SECTION 16 - OTHER INFORMATION

Veriscents document	VS-SDS-JASMINE-EGYPT-R9
Prepared from supplied documentation	Jasmine Absolute, Egypt SDS; created 10 June 2015; source revision date May 13, 2025.
Source revision history	R.1 10 Jun 2015; R.2 1 Jul 2015; R.3 15 Nov 2016; R.4 06 Nov 2017; R.5 Jun 2018; R.6 10 Sep 2019; R.7 06 Dec 2019; R.8 13 Aug 2021; R.9 13 May 2025.

Disclaimer

This Veriscents Safety Data Sheet is a reformatted customer-facing document derived from safety information supplied with the material. Veriscents has not independently generated the underlying toxicological, ecological, analytical or transport test data. The information applies to the material as supplied and is intended to support safe handling, storage, transport and use. Users remain responsible for determining suitability and compliance for their particular application.
